

What's it all about??

ELEVATE is a unique way for our students to study a National qualification through us, your studio, and Empowerdance Pty Ltd RTO 40397. We are thrilled to be an approved provider with Empowerdance where our students can use the classes they participate in with us and put them toward their Certificate.

Each week Empowerdance master trainers conduct our theory classes for our students via an online classroom platform and then all of their theory assessments are uploaded and completed through the online portal, which students will have access to, using their own log in.

Certificate III and IV students will have the opportunity to work alongside one of our dance teachers to gain valuable experience for some of their student teaching and teaching units.

Students will also work alongside their peers for group assessments, and the nature of these qualifications allows the student to have flexibility with their learning and be marked as Competent or not yet competent.

Due to students being in different states across the country, each class will move at a unique pace and will take holiday breaks that the class will decide on together. Classes may finish earlier or later than their approximate course time, and this will be dependant on class attendance and speed of learning.

STUDENT COMMITMENT – PRACTICAL

Students choose their practical units that are then completed with us during our regular schedule. The electives/styles students choose will determine how many hours are required to complete as a part of their Certification.
